Professional Engineer - As a consulting engineer, I was the project manager for the planning, design, and construction of FM 2551 (North Murphy Road), Betsy Lane, and McCreary Road in Parker and countless road/highway projects across Collin County and statewide.

Work Experience and/or Special Knowledge including anything applicable to this Commission:

I served on Parker's P&Z Commission for several years and chaired the Commission for 2 years, during which we developed the Subdivision and Zoning Ordinances that are still in effect. I guided the development of our first formal thoroughfare plan and worked with Collin County and NCTCOG to get our proposed thoroughfares added to their plans. I spearheaded efforts in the 90's to thwart large commercial development and even light industry from invading our ETJ. I also served as the city engineer for 4 years in the early 2000's. I have a thorough knowledge of the history of our city and the vision for our future.

Along with the Council and Mayor David Hammel, we investigated the options of Home Rule in the late 1990's, but the city was too small to qualify. I led the review and recommended approval of many of the developments that allowed our city to grow to the point that we are revisiting the Home Rule option now.

I have attended countless Council and Commission meetings over the past 23 years as a Commissioner, the City Engineer, and an active citizen. I have addressed the Council on a variety of issues including drainage, traffic, safety, proposed developments, and special use permits at Southfork Ranch.

Please tell us briefly why you wish to serve as a volunteer on this commission, including anything from your past volunteer/ business / work experience that would be an asset:

I wish to represent the the history of Parker and the intentions of our founders, past council members, and those that made Parker the greatest small town in Texas. I have given a lot of my time and attention to the city over the years and I plan to live out my life in Parker. I look forward to the day that my grandchildren visit me in the home that my kids were both born in. I want to ensure that is possible by not losing what we have fought to preserve for 40+ years. I believe that a Home Rule Charter may be what we need to make that a reality, but I also know that we must go forward with open eyes and fierce determination to get this right.
